

Hiding notes in a secret place - I know it so  
Close my eyes and see aeroplanes - and so it goes  
Crossing numbers and counting days - for you to see  
Fingers move and anticipate - I skip a beat

Hand me your eyes  
Oversized  
I can see through  
My disguise

I'm with you when I'm by myself  
At least I feel like it's true with a little help  
And can you tell; my heart beats faster when you speak  
And do you know heaven comes only for a week  
And then it goes

Hand me your eyes  
Oversized  
I can see through  
My disguise  
Show me your mind  
Hypnotise  
Cover your mood  
Heavy lies
