

# Fool

Basia Bulat

Find me when our house is empty  
I'm already in my new town  
From here, I can hear you laughing  
I know the sound very well

I'm still your fool, I'm still your fool  
I'm still your fool, I'm still your fool

Tried to find a way to show you  
Told the story to our friends  
Now that we all know the punchline  
Can I make you understand

That I'm still your fool, I'm still your fool  
I'm still your fool, I'm still your fool

I'm always first to break  
Friendly or foolish, you tell me  
No surprises, please  
Only our echo following  
Tried to find a way to show you  
I can't pin you down again  
Now that we all know the punchline  
Only you know if I am

Am I still your fool? I'm still your fool  
I'm still your fool, I'm still your..  
Fool...
