

Little One

Basia Bulat

Little one you wanted a sound
You wanted to hold onto another
Soon, before you can tell
You will be swallowed up into
Cause I'm aware we've been waiting here, where we've been for y
ears

You will wander around
Alone in the house we both abandoned
To measure our hopes with our hearts
Hearts with our hands we've taught them language
Yeah, we've been waiting here where we've been for years

I know you'll be back again
But i am alone till then
No one can understand, I've done a foolish thing

And carry a need to remind you of the terrible state I'm in
Till you come home

Little one you wanted a sound
You wanted to hold onto another
Soon, before you can tell
You will be singing aloud and you'll reach for the wall
And I know you'll be back again
But I am alone till then
No one can understand, I've done a foolish thing

And carry a need to remind you of the terrible state I'm in
Till you come home
Till you come home
