

Forgive And Forget

Basia

Don't ask me to forgive and forget
I'm not crying, no more tears left
How I'm feeling
You'd never understanding

Stop saying you'd like to explain
Don't promise
It's far far too late
Spare the details
No I don't want to know
Your honesty only makes me laugh

You can't make me love you anymore
Now I've got to learn to be free
And it really doesn't worry me
It don't worry me

You're unhappy
It's something I know
Time to end it once and for all
Can you hear me
We're too far
It's too late
You're free to go
Let me now forget
Let me forget
