

They Know Nothing About Us

Basia

Right from the start there was none who had faith in us
Who believed two of us had a chance
Many years
Precious scars
We survived
We are stronger

they don't know about us
They know nothing about us
They don't understand
They know nothing about us
They don't know about us
They know nothing about us
No, nothing about us
They don't get our love

wish we could be somewhere else
Where they wish us well
Where the people are happy for us
Just imagine how far we could go
What we could do
