

This Must Be A Dream

Basic Element

This must be a dream all I want is to see you
But then I think you take a part of my soul
This must be a dream all I want is to see you
But then I'm always running out of the door

It's a dream
Would you make it come true just for me
Would you realize my dream
Could it be just you and me

Watch me so watch me now can you come
and feel it then you come real low
I'm givin up and dancin'
I'm givin up and dancin'
If you wanna come
Then I give you the romance
No time no wick this thing
I will come back and wibba that thing
Respect man and you come real long
So come on follow me.
