

# I Wanna Be Forgotten

**Bass Drum of Death**

I need respite from my problems  
all this shit shines in my head  
and i've found you've found someone else  
buy a car, get fucked, be dead

You and me have got to find have got to find a place to sleep  
you and me have got to get away from all these whores and freak  
s  
you and me have got to find have got to find a place to sleep  
even though i've done you wrong  
wrong

I don't wanna be a good kid  
just tell me what to think  
and i wanna be forgotten  
when i'm gone you'll have a drink.

You and me have got to find have got to find a place to sleep  
you and me have got to get away from all these whores and freak  
s  
you and me have got to find have got to find a place to sleep  
even though i've done you wrong  
wrong
