

Far Away

Basshunter

I'm walkin' through the rain again
Thinkin' about you
And I can feel all the pain again
Everything for you

You're so far, far away
Far away, far away
Please come back and stay
One more day, one more day

You're so far, far away
Far away, far away
Please come back and stay
One more day, one more day

You're so far away

(Are you ready?)

(Let's get this party started!)

You're so far away
You're so far away
You're so far away
You're so far away

You're so far away
You're so far away
You're so far away
You're so far away

I'm walkin' through the rain again
Thinkin' about you
And I can feel all the pain again
Everything for you

You're so far, far away
Far away, far away
Please come back and stay
One more day, one more day

You're so far, far away
Far away, far away
Please come back and stay
One more day, one more day

You're so far away
