

# In Her Eyes

**Basshunter**

It's a saturday night  
Nothing will go wrong  
But if it does do I care ?  
I just dont know how to run  
It's a saturday night  
And I hope you believe  
My heart is calling your name  
So hear me out when I say

I can see it in her eyes  
When she turns to me and smiles  
Everything feels so right  
Until the morning light

I can see it in her eyes  
When she turns to me and smiles  
Everythingd feels so right  
Until the morning light

"Are you ready to party "

It's a saturday night  
Nothing will go wrong  
But if it does do I care ?  
I just dont know how to run  
It's a saturday night  
And I hope you believe  
My heart is calling your name  
So hear me out when I say

I can see it in her eyes  
When she turns to me and smiles  
Everythingd feels so right  
Until the morning light

"Are you ready"

I can see it in her eyes
