

# Lethargy

Bastille

Lethargy got a hold of me  
And I don't know how to shake it  
Got these itchy feet for a change of scene  
Do anything to escape it

Get up, get up, pressure, pressure  
Run away as fast as you can go  
Everyday our friends and lovers  
Give the answers everybody knows

You told me not to be like anybody else  
Headspin, happiness, death  
Be like anybody else  
Broke down, nothing else left

You checked out years ago  
Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you

"C'mon, relax"

There's an English man up in space these days  
Floating in awe and wonder  
As he broke away from the atmospheres  
From all of us non believers

Get up, get up, pressure, pressure  
Run away as fast as you can go  
Everyday our friends and lovers  
Give the answers everybody knows

You told me not to be like anybody else  
Headspin, happiness, death  
Be like anybody else  
Broke down, nothing else left

You checked out years ago  
Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you

Paint the scene for me  
Paint it bright and paint it clear  
I don't want to use my imagination here  
Don't want to use my imagination here  
Paint the scene for me  
Paint it bright and paint it clear  
I don't want to use my imagination here  
Don't want to use my imagination here

You told me not to be like anybody else  
Headspins, happiness, death  
Be like anybody else  
Broke down, nothing else left

You checked out years ago

Oh what I'd do not to worry like you  
You checked out years ago  
Oh what I'd do not to worry like you
