

# Horses of the Sun

Bat for Lashes

I curse the road, I curse the road  
And I came home to the love you gave  
And as I walked through my door I saw the stars spelled out: saved  
And all the gardens bloomed a flower for each day I was away

Now I'm saved  
Baby, saved

And I was alive  
And I was alive  
And I was alive  
And I was alive

You and me, we're more than on the run  
Busting at the heavens like the horses of the sun  
You and me, we're more than on the run  
Busting at the heavens like the horses of the sun

I curse the road, I curse the road  
And I came home to the love you gave  
And as I walked through my door I saw the stars spelled out: saved  
And all the gardens bloomed a flower for each day I was away

Now I'm saved  
Baby, saved

And I was alive  
And I was alive  
And I was alive  
And I was alive

You and me, we're more than on the run  
Busting at the heavens like the horses of the sun  
You and me, we're more than on the run  
Busting at the heavens like the horses of the sun

You and me, we're more than on the run  
Busting at the heavens like the horses of the sun  
You and me, we're more than on the run  
Busting at the heavens like the horses of the sun
