

## Kids in the Dark

Bat for Lashes

Lying next to you  
We could be on the moon  
Tell me you're not leaving

'Cause you're always on my mind  
It's been such a dark night  
Boy, I know you've been grieving

Riding through the pines  
See you in the red light  
And everything is on fire

Let's take it down  
To the heart  
Let's take it down  
To where the loving starts  
Where we're just kids in the dark

Lying next to you  
And I wanna live for two  
I tell you I'm never leaving

'Cause you're always on my mind  
It's been such a hard time  
But I know it's the real thing

Riding through the pines  
See you in the red light  
And everything is on fire

Let's take it down  
To the heart  
Let's take it down  
To where the loving starts  
Where we're just kids in the dark
