

# The Hunger

Bat for Lashes

Take a trip  
Trip up to the sun  
While our bodies are one  
And we play in our minds  
Cause it's our blood  
And it fills up the sky  
Off the bridges we fly  
Can we keep us alive?

I wanna fly  
You know how I like it  
I wanna feel  
Like I'm still alive  
I wanna bleed  
And feed us forever  
But I'll only feel  
The hunger inside  
The hunger inside  
The hunger inside

Take a trip  
Trip down through the fire  
Where we lose our desire  
To keep up the dance  
Cause it's our love  
(Cause you know it's our love)  
That is hurt by the flame  
(When it becomes a flame)  
Can't take road this road again  
(Can we get back to love)  
If we want to survive  
(Ooo)

I wanna fly  
You know how I like it  
I wanna feel  
Like I'm still alive  
I wanna bleed  
And feed us forever  
But I'll only feel  
The hunger inside  
The hunger inside  
The hunger inside

If I could be you  
(The hunger inside)  
And you could be me  
(The hunger inside)  
We'd see the hunger inside  
(The hunger inside)  
And not the enemy  
(The hunger inside)

If I could be you  
(The hunger inside)  
And you could be me  
(The hunger inside)

We'd see the hunger inside  
And not the enemy

Cause we can make it love again  
It's time to start things over  
And we can come back from the dead  
And feed this endless hunger

Cause we can make it love again  
It's time to start things over  
And we can come back from the dead  
And feed this endless hunger
