

## No Eyes

### Baths

You take me and I'll take you  
In that pit there in the smoke  
I can never make out your face  
Or at least I can't remember it  
I have no eyes, I have no love I have no hope

And it is not a matter of if you mean it  
But it is only a matter of come and fuck me  
And it is not a matter of if you love it  
But it is only a matter of my fix

Can swallow away the pain in my throat  
This isn't the adulthood I thought I wrote  
And I never see your face  
But i just might be okay with that  
I have no eyes, I have no love, I have no hope

And it is not a matter of if you mean it  
But it is only a matter of come and fuck me  
And it is not a matter of if you love it  
But it is only a matter of my fix

And it is not a matter of if you mean it  
But it is only a matter of come and fuck me  
And it is not a matter of if you love it  
But it is only a matter of my fix

And it is not a matter of if you mean it  
But it is only a matter of come and fuck me  
And it is not a matter of if you love it  
But it is only a matter of my fix
