

## Bat Attack

### Batmobile

When I went for a treasury hunt in a place far far away  
I really had a scary nightmare for the time I went to stay  
I thought I could find it in a place called Devil's Cave  
I was warned by a 1000 men but I just couldn't wait  
It was a bat attack they scared me to death it was a bat attack  
I walked through the woods for a 100 miles it was raining all the time

After a week I saw a cloud of bats coming my way  
Searched for a place to hide that I thought they couldn't find  
But they were fast, their teeth were sharp and my screams were very loud  
I walked through the woods for a 200 miles it was raining all the time

After a week I saw a cloud of bats coming my way  
Searched for a place to hide which I thought they couldn't find  
But they were fast, their teeth were sharp and my screams were very loud
