

Bat Dream

Batmobile

Walking through dark deserted streets no one here to see
Doors are slamming, windows yearning, clacking are my knees
A howling wolf is the only sight of life that's goin round
The scary silence is broken by a squealing vampire sound

I'm havin a bat-dream baby and I'm filled with fear
If you don't wake me up now I'm gonna get real cracked outthere
Is it my baby no it's a vampire it's gonna suck your blood
Brought out his zombie friend soon I'm gonna be caught
First they kill me then they eat me nothing will be saved
Noting will be left to put in my grave
