

Bring All My Love

Batmobile

Well when I see my baby walkin' down the line with again somebody new
I said he baby come on over here, I bring all my love to you
Honey baby don't walk out on me, tell me what I'm gonna do
Well I run to you say come back chick, I bring all my love to you

When you want me baby
Scream and I be there
Just forget that other man
And walk with me
Honey baby don't walk out on me, tell me what I'm gonna do
Well I run to you say come over here, I bring all my love to you

Well when I see my baby walkin' down the line with again somebody new
I said he pretty baby get over here, I bring all my love to you
