

Come To Me

Batmobile

Gather alle around me listen what I say
It's about the pretty girls who tried to come my way
All I need is a toothpick a nail or a stone
Cause I am a ravin madman who keeps them for his own
When a girl looks my way
I don't care if it's night or day
I can't help it I just say
Come on come to me
I tell them I am a sweet boy never do you no harm
But when I get the chance I lose that lovin charm
I cut them with a razor hit them with a brick
And as I leave them lifeless that's when I get my kick
So I say
