

## Grab The Money And Run

Batmobile

Well I don't care if you want to stay  
And I don't care if you're going away  
If you want something baby you always get it done  
Hear me what I say, grab the money and run  
Grab the money and run... hear me what I say grab the money and  
run  
If you stay too long I'll never let you go  
I can do without you 'cause you hurt me so  
Like the North and South don't come close  
Take that cash or you make me shout  
Well the times we had together were too good to be true  
Go away for I start lying to you  
Grab the money and run  
Well the days of joy have long since gone  
I say farewell we've had our fun  
Grab the money and run
