

Rollin' Dynamite

Batmobile

She's the kind of girl I go for draws the attention
She's a rock and roller or any dancer you want to mention
She's shaking all the other chickens right out the scene
When she's shaking she's the queen

Shake it, shake it baby baby
I want to shake you child
You rock and rolling child
You really moving child
And oh so grooving child
Crazy little mama really rocks you wild
My chicky is a stick of rolling dynamite

Shake it, shake it baby baby
I want you with me baby
Yeah you thrill me baby
I want you with me/you thrill me honey
You make me feel so funny
Crazy little mama really rocks you wild
My chicky is a stick of rolling dynamite

Now the people gather 'round her see her begin her motions
Every bone in her body is in a commotion
I go grabbin' to the rhythm and she's shaking with me
And she carries me away

Shake it, shake it baby baby
I want you with me baby
Yeah you thrill me baby
I want you with me
You make me feel so funny
