

## Bringer of Pain

Battle Beast

The stream of blood and tears  
Are running down the hills of glory  
Now men are fighting  
They are dying for a cause unknown  
For they were never told  
The reason for their sacrifice  
And now the truth comes out  
There is no doubt  
Their fate as been sealed  
Forever!

No one will hold  
The bringer of pain  
She'll make you kneel  
The bringer of pain

The smell of agony and burning flesh  
Now fills the air  
The rusting swords  
Slitting open necks 'n' guts 'n' hair  
It's time to fight or die  
You can't scape your destiny  
Grab it by the horns, forget your flaws  
Embrace the judgment day  
Her payday

No one will hold  
The bringer of pain  
She'll make you kneel  
The bringer of pain

You will be taken down  
There 's no way out

No one will hold  
The bringer of pain  
She'll make you kneel  
The bringer of pain
