

# Out Of Control

**Battle Beast**

Welcome to my kingdom madness  
You're just in time for the show  
Welcome to my world of darkness  
A place where unreal becomes real

Come drink my blood, wake the demon in me  
Come taste the wine of my sins

Out of control,  
Without any fear of facing the madman  
Out of control,  
Defying the Gods of Hell  
You are out of control

You can't find a shelter in Hellspace,  
Under my black wings of doom  
The wind in the wasteland is howling  
It's the wailing of ghosts of the past

Swing 'cross the ocean of pleasure and pain,  
Into my fatal embrace

Out of control,  
Without any fear of facing the madman  
Out of control,  
defying the Gods of Hell  
You are...

Out of control,  
Without any fear of facing the madman  
Out of control,  
defying the Gods of Hell  
You are out of control, whoa yeah!

Out of control,  
Without any fear of facing the madman  
Out of control,  
defying the Gods of Hell  
You are...

Out of control.
