

## Out On The Streets

**Battle Beast**

Still searching in dark city nights  
Unknown places, where should I start  
I'm lost and alone in the future world

Out on the streets again, out on my own  
Just like always, nowhere to go  
Out on the streets again, fighting my war  
On the streets where I belong

I carry an axe on my back  
Got no shelter when they attack  
I'm waiting prepared in the neon lights

Out on the streets again, out on my own  
Just like always, nowhere to go  
Out on the streets again, fighting my war  
On the streets where I belong

I'm out on the streets in the night  
I'm out on the streets in the night  
I'm out on the streets in the night

Out on the streets again, out on my own  
Just like always, nowhere to go  
Out on the streets again, fighting my war  
On the streets...

Out on the streets again, out on my own  
Just like always, nowhere to go  
Out on the streets again, fighting my war  
On the streets where I belong  
Where I belong!
