

## Straight to the Heart

Battle Beast

In the still of the night  
Hear my heart beating through  
So won't you come and get  
What you've been waiting for  
When the moon is high  
I'll be hunting for you  
And when the night is done  
You'll be screaming for  
more, more, more

Straight to the heart  
Light me up before I'm done  
Straight to the heart  
Hear the thunder roar  
Ooh, my love  
We'll never get enough  
Straight through your heart!  
I'm out for you  
And I never miss my mark

No, no!

My wicked love  
It's the weapon I wield  
No need to beg on your knees  
I'm always there for you  
I am not what you want  
But I got what you need  
Give into my arms  
And I'll set you  
Free, free, free

Straight to the heart  
Light me up before I'm done  
Straight to the heart  
Hear the thunder roar  
Ooh, my love  
We'll never get enough  
Straight through your heart!  
I'm out for you  
And I never miss my mark
