Dwimmerlaik

Curse you foul beast! Surrender or face my blade Curse you foul beast! Your armies will meet their fate Against your hordes until they fall Heroes of Rohan ride to last breath Of your orcs and your trolls This is their death

Fool of a man Do not try to tempt me Mortal powers of yours Are not nearly enough My blessing so cruel Will be your doom Far beyond is the dawn Of my death

Curse you foul beast! Past are the years of the grief Curse you foul beast! The end is to come for the One Ring Your abyssic eyes fooled your mind I'm no man, that I can tell Feel my sword the time is to die Maid of Rohan will break thy spell

Be damned vile being Enchantment of the ages Vanquished and gone Now my spirit flies free Brief moment I'll see The most beautiful spark of the light To eternal damnation My soul shall flee

Can't you see the eve of your defeat Can't you see when your enemy Crumbles down the walls of yours Slays the reign and takes your throne

Witch-king of Angmar, Dwimmerlaik Warlord from the North came and tried to Fight with the heir of Eorl's tribe By the daughter of Rohan he died

New day without the fear Gone are the tears No more guarding the skies Words of hope without the lies
