

Thousand Caves

Battlelore

Elven underworld
Colors of the stars
Their dens seal the love
That lies above
Elven underworld
So far from the stars
Their dens seal the love
For the night and the skies

Woods and wild
Air and light
Bones of the earth
Crafted by the Dwarves
Legacy of Naugrim

Caves of Menegroth
Dwarven illusion
All the cold and grey
Covered with green
Caves of Menegroth
Dwarven illusion
Walls of golden fey
Cover their realm

For once their eyes can see
The same harmony
For once not to care the race
Beards or ears, the brothers face

Hammers of Khazãd
Shaped the mountainside
Blasted like a lightning
The skill, the neat, the pride
Legacy of Naugrim

Elven underworld
Colors of the stars
Their dens seal the love
That lies above
Thousand caves its stalk
Cursed by Sindar
All the beauty's gone
Under the waves
