

# By Steel I Reign Supreme

Battlerage

Voices like thunder are rising  
The blow of the hammer resounds  
The fools who deny this my warning  
Will fall dead and cold to the ground

Chosen the wielder of steel  
The wargods of old by my side  
My armies are in for the kill  
Onwards to glory we'll ride

Born to conquer, not to serve  
Raised by wolves, on mankind I've fed  
Not for heaven, not for hell  
Into the glory of battle again

By steel  
I take your lives  
By steel  
I spread the fear  
Before me  
All men shall kneel  
By steel  
I reign supreme

The false ones will call me the tyrant  
Their ashes will tell that they're right  
Forever in power and glory  
The strongest will stand by my side

We're destined to rule by the sword  
Forever with steel we are bound  
We bring you the metal slaughter  
The keys to your death we have found

Born to conquer, not to serve  
Raised by wolves, on mankind I've fed  
Not for heaven, not for hell  
Into the glory of battle again

By steel  
I take your lives  
By steel  
I spread the fear  
Before me  
All men shall kneel  
By steel  
I reign supreme

Born to conquer, not to serve  
Raised by wolves, on mankind I've fed  
Not for heaven, not for hell  
Into the glory of battle again

By steel  
I take your lives  
By steel  
I spread the fear

Before me  
All men shall kneel  
By steel  
I reign supreme
