

Love Brought Me Such A Magical Thing

Bay City Rollers

It's not because your eyes say something to me
It's not because your smile flies me away
Really it's an ordinary day
But sunshine's shining through me
It seems you kinda did it to me
Love brought me such a magical thing
And left me new
Love brought me such a magical thing
And gave me you
Love brought me such a magical thing
And left me new
Love brought me such a magical thing
And gave me you
It's not the words you quietly whisper to me
the way you say them leaves them far behind
Sometimes it's so difficult to find
A way to tell you truly
It seems you kinda did it to me
No shorter than endlessly
