

## My Lisa

Bay City Rollers

Lisa, one more time for old time's sake  
Come save me, from this crazy world I'm in  
My dreams are weak and falling into this hole inside my bed  
Where the pieces of this life we put together  
Oh, can't you see it in my eyes  
Lisa, you're the dancer to the song  
Without your music, all the words just seem so wrong  
And like a picture you keep fading, your colors running dry  
Save the pieces of this life we put together  
Oh, can't you see it in my eyes?  
Oh, won't you save a place for me tonight  
Find a space for me and light this corner of my lonely life  
Lisa, my beginning and my end  
I need ya  
You're my lover and my friend  
My future would be brighter if you'd  
only answer yes  
And help me put these pieces back  
together  
Can't you see it in my eyes  
And won't you save a place for me  
tonight  
Find a space for me and light  
this corner of my lonely life
