

## Once Upon A Star

Bay City Rollers

So for another year, a face up on the wall  
Now is it really you, you turn but no-one's there  
Lights, now the scene is set, the final act  
The end of one who loved and gave, took nothing in return  
And as the curtain falls you hear them call for more  
But in your heart you know it's over, it's over  
Ooh, don't let it get you down  
You made them laugh, you made them cry you know  
Ooh, and when the lights are low  
In their eyes you'll always be a star  
Remember those were the days, your name in lights  
Up in the stars, your friends all drinking champagne from your  
hand  
Now that was only yesterday, or so it seems  
But still the years have passed you by, the times have changed  
so fast  
Now memories and all the dreamings in the night  
Are all that's left of yesterday  
Ooh, don't let it get you down  
You made them laugh, you made them cry you know  
Ooh, and when the lights are low  
In their eyes you'll always be a star
