

# Bear with Me

Bayside

Well I could be brief  
But what would that change?  
I just beg to borrow time  
Adding minutes to my life  
To long for something I can't buy  
And I try to look like I'm fine  
But there's proof in every phrase  
And these rings around my tired eyes say something's gotta change

Ashes ashes  
Buried in his mattress  
Slept in flames  
And smothered in his blanket

Stay with me  
Bear with me  
I am a novelty  
But I'm twice the man I used to be  
Oh agony (agony)  
Bear with me  
I am a dying breed  
But I'm twice the man I used to be  
Ashes ashes

Well I do believe that our decline is pre-disposed  
But it keeps me on my toes  
I can't accept what I can't control  
And I pray that I can be cured  
And never leave this place  
Lady luck beyond my sight as I'm just withering away

Ashes ashes  
Buried in his mattress  
Slept in flames  
And smothered in his blanket

Stay with me  
Bear with me  
I am a novelty  
But I'm twice the man I used to be  
Oh agony (agony)  
Bear with me  
I am a dying breed  
But I'm twice the man I used to be

And it's too late for me  
I've been talking in my sleep  
And I've got nothing to say to me

Ashes ashes  
Buried in his mattress  
Slept in flames  
And smothered in his blanket

Stay with me  
Bear with me  
I am a novelty

But I'm twice the man I used to be  
Oh agony (agony)  
Bear with me  
I am a dying breed  
But I'm twice the man I used to be
