

# You're No Match

Bayside

So sad to see you go  
But you've had enough of everyone here  
You couldn't light a candle to who you're pretending to be  
So go and search for some new sucker  
Sing a song and say a prayer for me

You are the monster I was scared you'd be  
And now you're blaming it on your surroundings  
And you're horns came out so gradually  
But honey you're no match for me  
You're no match for me

I've watched you're name get trampled  
In the mess through which you've travelled  
And the friends you swore that you were so above  
Who's gonna care about you?  
When you don't care about anyone  
So go and search for some new sucker  
Sing a song and say a prayer for me

You are the monster I was scared you'd be  
And now you're blaming it on your surroundings  
And you're horns came out so gradually  
But honey you're no match for me  
You're no match for me

Well I know I'm quite the catch  
But I'll sake it all just to be loved back  
I always do this  
I always do this  
Sorry to say but you're not worth one more blister on my heart  
I always do this  
I always do this

Sorry, you are the monster I was scared you'd be  
And now you're blaming it on your surroundings  
And you're horns came out so gradually  
But honey you're no match for me  
You're no match for me

You are the monster I was scared you'd be  
And now you're blaming it on your surroundings  
And you're horns came out so gradually  
But honey you're no match for me
