

# Love Is Leaving

BBMak

There Were times I knew  
But I found it hard to say  
You were special in my life  
Never thought you'd go away  
I'll be strong, I'll get by  
Without you in my life  
I can see through your lies  
Did you ever love me  
I never found you love...

You and I know  
Love is leaving  
And you don't want me anymore  
Why should I even try  
You and I know  
Love is leaving  
Now you're the last thing on my mind  
Someone else I will find  
A memory I've left behind

If I ever made you cry  
Any reason I can't find  
It was lonely by your side  
Like a fool I stood by you  
I'll be strong, I'll get by  
Without you in my life  
I can see through your lies  
Did you ever love me  
I never found your love...

You and I know  
Love is leaving  
And you don't want me anymore  
Why should I even try  
You and I know  
Love is leaving  
Now you're the last thing on my mind  
Someone else I will find  
A memory I've left behind

Is there something I could do  
Is there something I should say  
Is there someone else to keep me from the night

You and I know  
Love is leaving  
And you don't want me anymore  
Why should I even try  
You and I know  
Love is leaving  
Now you're the last thing on my mind  
Someone else I will find  
A memory I've left behind

You and I know  
Love is leaving  
And you don't want me anymore

Why should I even try  
You and I know  
Love is leaving  
Now you're the last thing on my mind  
Someone else I will find  
A memory I've left behind
