

Next Time

BBMak

I lie awake and die I try but I can't deny
That I can't make it without her
I can't forget the day I let her slip away
And I', still dreaming about her
Can a heart forget 'cause I just can't live without her

The next time you see my girl
Won't you say that I, I will Die, I would die to hold her
The next time you see my girl, won't you tell her I love her
The next time you see my girl

Maybe next time
I walk the streets at night see lovers passing by
And it's all a reminder
Of what it used to be when she was here with me
I only wish I could find her
Did she disappear 'cause I'm waiting right here for her

The next time you see my girl
Won't you say that I, I will Die, I would die to hold her
The next time you see my girl, won't you tell her I love her
The next time you see my girl

I close my eyes I see her face and I realize
But in front of me I had it all but I set her free
So next time you see my girl
Oh won't you tell her that I'm sorry
Tell her that I love her

The next time you see my girl
Won't you say that I, I will Die, I would die to hold her
The next time you see my girl, won't you tell her I love her
The next time you see my girl
