

Out Of Reach

BBMak

Every day just seems so long
Every minute that I'm here without you
Will tomorrow ever come
Will I ever get a chance to feel you
I need you so much
You're out of reach
You're out of reach but you're so close
I hear you cough I feel you fall
But you're out of reach

Another room I can't hide
Another night without you here beside me
Cause I don't want to fake it
I'm just trying to make it yeah
I need you so much
You're out of reach
You're out of reach but you're so close
You're out of reach
You're out of reach but you're so close
You're out of reach
You're out of reach but you're so close
