You are a chainsaw through my heart Ripping right through me from the start You make me go crazy all night long I need you so bad, I know it's gotta be wrong You get on my nerves, you make me so mad It's times like these that I just can't stand You're so far away and I can't hurt you now I guess I'll just use myself like I know how Rip out my hair Wish that it's yours Cut my own skin Pretend that it's yours Call you up in tears Then you'll take back all the things that you said And we can be ourselves once again Goddamn, how you make me scream and shout I don't wanna run around my room and pout But you make me do it and I can't hardly stand it You've got my heart and you know you've always had it But now you're so far away And there's no way to make you pay So I'll go around my room and break anything I want And in my head imagine breaking your heart Rip out my hair Wish that it's yours Cut my own skin Pretend that it's yours Call you up in tears You're such a tease, you're such a jerk Why do I waste my time? I'll make you take back all the things that you said I'll make you take back all the things that you said You're such a tease, you're such a jerk Why do I waste my time? I'll make you take back all the things that you said I'll make you take back all the things that you said You're such a tease, you're such a jerk Why do I waste my time? I'll make you take back all the things that you said I'll make you take back all the things that you said You're such a tease, you're such a jerk Why do I waste my time? I'll make you take back all the things that you said I'll make you take back all the things that you said And we can be ourselves once again You are a chainsaw through my heart Ripping right through me from the start You make me go crazy all night long I need you so bad, I know it's gotta be wrong You get on my nerves, you make me so mad It's times like these that I just can't stand You're so far away and I can't hurt you now I guess I'll just use myself like I know how
