## We Will Vacation, You Can Be My Parasol

## **Be Your Own Pet**

Right up the wall to the darkest place It gets so dark when we're below the waist We are the knowing oh yes we know it all We will vacation, you will be my parasol

Vacation says, vacation says We have to be good to each other We have to be so good to each other We have to lend our support

Right up the wall to the darkest place It gets so dark when we're below the waist We are the knowing oh yes we know it all We will vacation, you will be my parasol

Play my piano I will lend you a hand What aggravates you will be my demand It's not impossible to burn this place down Without your wings we can burn this place down

Right up the wall to the darkest place It gets so dark when we're below the waist We are the knowing oh yes we know it all We will vacation, you will be my parasol

Right up the wall to the darkest place It gets so dark when we're below the waist Right up the wall to the darkest hole We will vacation, you will be my parasol
