

# We're Taking Over

Bea Miller

This is to the ones  
that broke my heart  
This is to the words  
that they lived by  
Living our lives  
like they're perfect

This is for the words  
that saved my life  
This is for the ones  
who always had  
Living their life like

So what, if we're not perfect?  
So what, we know we're worth it

We can jump  
here's my song  
From beyond the loss  
of the underdogs  
We're taking over  
We're taking over

Need you right,  
I need you wrong  
So we got used  
to staying strong  
We're taking over  
We're taking over

Now (3x) yeah

This is for the ones  
who knew it right  
This is for the ones  
who told a lie  
It gets better,  
you'll be fine

This is for the girls  
that like chicks  
And this is for the guys  
that like chicks  
But baby don't worry now

So what, if we're not perfect?  
So what, we know we're perfect

Living it up,  
here's our song  
From beyond the loss  
of the underdogs  
We're taking over  
We're taking over

Need you right,  
I need you wrong

So we got used  
to staying strong  
We're taking over  
We're taking over

Now (3x) yeah

If you're standing  
if you're breathing  
With nobody,  
we're not leaving  
let me see you  
If you hear me  
sing along

If you're standing  
if you're breathing  
With nobody,  
we're not leaving  
let me see you  
If you hear me  
sing along

Living it up,  
here's our song  
From beyond the loss  
of the underdogs  
We're taking over  
We're taking over

Need you right,  
I need you wrong  
So we got used  
to staying strong  
We're taking over  
We're taking over

Now (3x) yeah  
Now (3x) yeah

We're taking over now
