

I'd Love Just Once to See You

Beach Boys

I'm doin' this and I'm doin' that
And I'm a-walkin' the floor
I drink a little of this and eat a little that
And poke my head out the door

I get thinkin', I'm wastin' the night away
I wouldn't mind if I could get with you right away
Oh honey, don't know how long it's been
But this feelin's buildin' up inside again

I wash the dishes and I rinsed up the sink
Like a busy bee
I make up a song as I'm a-workin' along
No one's watchin' me

I wish that you were here to help me dry
When's the last time you baked me a pie?
You had a way of makin' it come alive
It's not too late for you to take a drive

It's not too late
I'd love just once to see you
I'd love just once to see you
I'd love just once to see you in the nude
