

Strange World

Beach Boys

On Santa Monica city pier
We watch the people who gather here
The uninvited who've lost their way
And now we're all here to stay

And it's a strange world
There's nothing to it
Strange world
I'm getting through it
Strange world
Thinking it over
It's a strange world after all

Multi-colourful lives we run
To catch a glimpse of the setting sun
I can't imagine how life would be
If you were not here with me

And it's a strange world
There's nothing to it
Strange world
I'm getting through it
Strange world
Strange world after all

Sunday morning
Skies so blue
Yo te amo
Means I love you

You can drive your car
To the county fair
Or ride your bicycle anywhere
It doesn't matter that much to me
Cause we're pretty good company

And it's a strange world
There's nothing to it
Strange world
I'm getting through it
Strange world
Thinking it over
It's a strange world after all
