

## Strange World

Beach Boys

On Santa Monica city pier  
We watch the people who gather here  
The uninvited who've lost their way  
And now we're all here to stay

And it's a strange world  
There's nothing to it  
Strange world  
I'm getting through it  
Strange world  
Thinking it over  
It's a strange world after all

Multi-colourful lives we run  
To catch a glimpse of the setting sun  
I can't imagine how life would be  
If you were not here with me

And it's a strange world  
There's nothing to it  
Strange world  
I'm getting through it  
Strange world  
Strange world after all

Sunday morning  
Skies so blue  
Yo te amo  
Means I love you

You can drive your car  
To the county fair  
Or ride your bicycle anywhere  
It doesn't matter that much to me  
Cause we're pretty good company

And it's a strange world  
There's nothing to it  
Strange world  
I'm getting through it  
Strange world  
Thinking it over  
It's a strange world after all
