

# Wake the World

Beach Boys

One by one the stars appear  
The light of the day is no longer here

One by one the stars disappear  
The sky grows brighter every minute of the sunrise

Wake the world with a brand new morning  
Say hello to another fine morning  
Got my face in the running water

Making my life so much brighter  
Moon shines bright, asleep in my bed  
Like so many people got a big day ahead of me

Wake the world with a brand new morning  
Say hello to another fine morning  
Wouldn't miss it for all of its glory  
I'll be there when you're calling me

One by one the stars appear  
The light of the day is no longer here
