

## What A Pleasure

### Beach Fossils

Woken up and here I am  
All too fast to understand  
All the way across the sea  
Thinking thoughts of you and me  
In my life, I've never felt so free  
You're so far away from me

What a pleasure all this is  
I take it all the way  
I take it all the way

I take it all the way  
I take it all the way  
I take it all the way  
I take it all the way
