

## Better Times

Beach House

I want you  
To know the truth  
Cause I've been around before  
Thought I wasn't looking anymore

Been a fool for weeks  
Cause my heart stands for nothing  
And your soul too weak  
Got a will that's been around for days  
Goes far if you want it, it needs to be have,  
But then you,  
You come around,  
Big mistake

I don't want to know  
I don't want to know  
We don't need the sign to know  
Better times

Running around cause you put yourself up  
You made a crack and the one that you loved is gone, oh...  
How much longer can you play with fire  
before you turn into a light oh... (x 2)

I've been around before  
Thought you weren't looking anymore  
But then we,  
We come and and go,  
Goes up in smoke

I don't want to know  
I don't want to know  
We don't need the sign to know  
Better times
