Better Times

Beach House

I want you To know the truth Cause I've been around before Thought I wasn't looking anymore

Been a fool for weeks Cause my heart stands for nothing And your soul too weak Got a will that's been around for days Goes far if you want it, it needs to be have, But then you, You come around, Big mistake

I don't want to know I don't want to know We don't need the sign to know Better times

Running around cause you put yourself up You made a crack and the one that you loved is gone, oh... How much longer can you play with fire before you turn into a light oh... (x 2)

I'v been around before Thought you weren't looking anymore But then we, We come and and go, Goes up in smoke

I don't want to know I don't want to know We don't need the sign to know Better times
