

## Days of Candy

### Beach House

No one could find you  
Out on your own  
All things I loved  
But do not know

Our hope will rule  
These days of candy  
Live in your mind  
Those violet lights  
Wide, fenced and wise

Across my eyes  
A world inside you  
No faltered ground  
My natural one  
The rising sun  
Live in your mind

Just like that, it's gone  
Just like that, it's gone  
Just like that

I know it comes too soon  
The universe is riding off with you  
I hope, I feel, I know  
A little bit of you will keep it close to me  
I know it comes too soon  
The universe is riding off with you  
I know it comes too soon  
I know it stays for nobody  
I want to know you there  
The universe is riding off with you
