

## Levitation

Beach House

You and me with our long hair on the gold one  
After midnight we could feel it all  
I go anywhere you want to

You should see there's a place I want to take you  
When the train comes I will hold you  
Cause you blow my mind

On the bridge levitating cause we want to  
When the unknown will surround you  
There is no right time  
There is no right time

The branches of the trees  
They will hang lower now  
You will grow too quick  
Then you will get through it

The branches of the trees  
They will hang lower now

There's a place I want to take you  
When the unknown will surround you
