

She's So Lovely

Beach House

She's so lovely
Everything about her
Mannerism of another
From the way that her eyes are
Shaped like the skies

And its making me sick
With her head on my shoulder
Waking up just to believe
Barely

For her dinner baby pink lavender
Leather white umbrella sinner

She's so lovely
Everything about her
Mannerism of another

Castles in the sand
Money in your hand
And all I have to do
Is everything for you

Castles in the sand
Money in your hand
And all I have to do
Is stay away from you
