

## Space Song

Beach House

It was late at night  
You'd held on tight  
From an empty sea  
A flash of light

It would take awhile  
To make you smile  
Somewhere in these eyes  
I'm on your side

You wide eye'd girl  
You get it right

Fall back into place  
Fall back into place

Tender is the night  
For a broken heart  
Who will dry your eyes

What makes this fragile world go 'round?  
Were you ever lost  
Was she ever found?  
Somewhere in these eyes

Fall back into place  
Fall back into place
