

Space Song

Beach House

It was late at night
You'd held on tight
From an empty sea
A flash of light

It would take awhile
To make you smile
Somewhere in these eyes
I'm on your side

You wide eye'd girl
You get it right

Fall back into place
Fall back into place

Tender is the night
For a broken heart
Who will dry your eyes

What makes this fragile world go 'round?
Were you ever lost
Was she ever found?
Somewhere in these eyes

Fall back into place
Fall back into place
